

SIAM Journal on Mathematical Analysis

Using Mathematical Methods and
Innovative Analytical Techniques

Editor-in-Chief

Robert Lipton

Louisiana State University

Publishes research articles of the highest quality employing innovative analytical techniques to treat problems in the natural sciences. Every paper has content that is primarily analytical and that employs mathematical methods in such areas as partial differential equations, the calculus of variations, functional analysis, approximation theory, harmonic and wavelet analysis, or dynamical systems. Additionally, every paper relates to a model for natural phenomena in such areas as fluid mechanics, materials science, quantum mechanics, biology, mathematical physics, or to the computational analysis of such phenomena.

epubs.siam.org/sima

ISSN: 0036-1410 (print) / 1095-7154 (electronic)

Frequency: electronically published continuously

Year established: 1970

Formats: electronic and print

2024 volume number: 56

2024 rates: electronic only \$1,525 / print add-on \$255
