

SIAM Journal on Applied Dynamical Systems

Communicating and Visualizing Dynamics

Editor-in-Chief

Lora Billings

Montclair State University

Publishes research articles on the mathematical analysis and modeling of dynamical systems and its application to the physical, engineering, life, and social sciences. Submitted articles contribute to the theory of dynamical systems, to the understanding of dynamical systems phenomena through experiment or numerical simulation, or to the use of dynamical systems methods in applications. Contributions can be of a theoretical, computational, or experimental nature.
