

SIAM Journal on Optimization

Linking Optimization Applications, Algorithms, Software, and Computational Practice

Editor-in-Chief

Jong-Shi Pang

University of Southern California

Publishes research articles on the theory and practice of optimization. The areas addressed include linear and quadratic programming, convex programming, nonlinear programming, complementarity problems, stochastic optimization, combinatorial optimization, integer programming, and convex, nonsmooth and variational analysis. Contributions may emphasize optimization theory, algorithms, software, computational practice, applications, or the links between these subjects.

epubs.siam.org/siopt

ISSN: 1052-6234 (print) / 1095-7189 (electronic)
Frequency: electronically published continuously
Year established: 1991
Formats: electronic and print
2024 volume number: 34
2024 rates: electronic only \$968 / print add-on \$174
